

THE KLINGER GROUP IN 2015: KEY FACTS

Family-owned since 1886, the Klinger Group of Independent Companies operates state of the art manufacturing and distribution facilities, offering Sealing, Fluid Control and Instrumentation

- Leading manufacturer of soft and metal sealing products
- Recognized producer of specialty valves and level monitoring products
- More than 60 manufacturing, distribution and service hubs worldwide

KLINGER SOUTH AFRICA

TOTAL FLUID SEALING AND FLUID CONTROL SOLUTIONS

BUSINESS

- TOTAL SEALING AND FLUID CONTROL SOLUTIONS OFFERED TO A VARIETY OF INDUSTRIES
- TRUSTED SUPPLIER OF LEAK SEALING, FLANGE MANAGEMENT, FABRIC COMPENSATORS AND ENGINEERING PLASTICS
- QUALITY CONTROL AND BOLT TORQUEING SERVICES SUPPLIED TO INDUSTRY
- INDUSTRY LEADER IN SOUTHERN AFRICA

CERTIFICATES

- ISO 9001:2008 ACCREDITED FACTORY
- MERSETA ACCREDITED TRAINING FACILITY
- ON SITE RESEARCH & DEVELOPMENT LABORATORY

EMPLOYEES

- 351 TRAINED AND DEDICATED EMPLOYEES

MARKETS

A trusted supplier around the world and across industries

PRODUCT PORTFOLIO

Meeting specifications, exceeding expectations

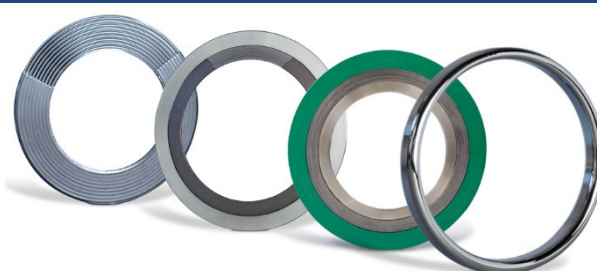

SOFT CUT GASKETS & SHEETING

Applications

- Complete range of products to suit your requirements
- Temperature range from -200°C to 450°C
- Available to sheets or pre-cut to your requirements
- Pressure range from vacuum to 200 bar
- Complete range of media sealed

SEMI-METALIC & METALIC GASKETS

- Designed and manufactured to exceed your demands
- Temperature range from -200°C to 900°C
- Available in ASME, DIN, BS and custom designs
- Pressure range from vacuum to Class 20 000 rating
- Complete range of media sealed

MECHANICAL PACKING

Applications

- Temperature ranges from -200°C to 1000°C
- Available in sizes from 3mm to 130mm
- Pressure range from vacuum to 500 bar
- Complete range of media sealed

FLUID CONTROL

- Full range of valves for all applications and industries
- Safety valves and steam related products
- Air Torque actuators and controls
- Level gauges and sight glasses
- Bursting discs

FLEXIBLE COMPENSATORS & BELLOWS

Applications

- Temperature range from -200°C to 800°C
- Engineered to design requirements
- Manufactured to specific client's designs
- Pressure range from vacuum to 40 bar
- Complete range of media sealed

FIELD SERVICES

- Bolt torquing services
- Bolting Quality Control
- Leak Detection And Repair
- On-line leak sealing services
- On-site machining services
